

Fighter Auction Tourney funds request

Name: Angele de Savignyas Clerk of the Lochac Company of Archers

Location:Lochac-wide (I reside in Darton)

What is the bid for?

The Company of Archers have tokens which we give to people that impress us with what they are doing with archery or combat archery.

We have run out, and would like to get more cast so that we can continue to recognise and encourage people in archery.

Who will directly benefit from this bid?

The 21 members of the order will receive an allocation of the cast tokens to distribute to archers and combat archers that we would like to encourage by recognising them. I know the sense of pride I had when I received mine, we'd like to be able to share that!

TigBeswick (as the artisan) will be paid for her time and skill.

What is the total cost ?

\$150 in materials (2 sticks of pewter) and \$100 in labour to process that amount.

\$250 in total

Tig already holds the mould for these tokens, so production costs do not include design and manufacture of the mould.

Did you obtain quotes? If so, please provide details.

As above from Tig

What amount are you requesting from the Fighter Auction Tourney funds?

\$250

Is there any other information you would like to provide?

We presume that this quantity of pewter will create over 200 tokens, so 10+ for each Companion of the order. I have only given two in my time as a LCOA, so I expect this quantity will keep us going for many years.
